WHAT CAN I DO WITH LEFT OVER PUMPKINS

Kitchen and Garden Projects

Roast the seeds: Separate the seeds from the pulp, rinse them, and roast them in the oven with salt and spices.

Save seeds for planting: Dry clean seeds in a cool, dark place or refrigerator to plant a new pumpkin patch in the spring.

Use as a planter: Hollow out a smaller uncarved pumpkin, fill it with soil, and plant fall flowers or succulents directly inside.

WHAT CAN I DO WITH A LOT OF PUMPKINS

You can compost, donate, or repurpose old pumpkins instead of sending them to a landfill where they produce methane gas. Raise Your Garden

Composting and Soil Enrichment

- Home compost: Chop the pumpkin into smaller pieces and add it to your compost bin as a high-nitrogen green material. Raise Your Garden +1
- Bury it: Dig a shallow hole in your garden and bury pieces or the whole pumpkin to break down and feed the surrounding soil with vitamins and potassium. Pennsylvania Horticultural Society +1
- Community drop-offs: Look for local "Pumpkin Smash" events or city waste collection programs that turn old pumpkins into commercial compost.

GET A NICE HOT DRINK AT MAIN STREET PERK & PUB ON THESE COLD MORNINGS

Coffee originated in the highlands of Ethiopia, where wild Coffea arabica plants grew, and was first cultivated and consumed as a beverage in Yemen during the 15th century.

- Ethiopia: Wild coffee plants originated in the forests of the Ethiopian plateau (historically linked to the Kaffa region).]
- The Legend of Kaldi: A 9th-century Ethiopian goat herder named Kaldi reportedly discovered coffee after noticing his goats became hyperactive and danced after eating red berries from a local shrub.
- Etymology: The word comes from the Arabic qahwah, which later became the Turkish kahveh and the Dutch koffie, possibly tracing back to the Kaffa region in Ethiopia.
